

## Philips Series 3000 Outdoor Camera

HSP3800/01

- Weatherproof IP65
- Spotlight to warn intruders
- Colour Night Vision
- Pan & Tilt + Motion Tracking

## Seamless home safety you can trust

Capture what other cameras can't with pan & tilt

- 24/7 Control via the Philips Home Safety app
- Full HD Clarity & Colour Night Vision
- Always know what's happening at home
- No hard wiring necessary. Just mount, plug & play
- Differentiates between movement, noise or people
- Weatherproof IP65 Design
- Cover all angles with pan & tilt

\*Mains power and internet connection required.

\*\*\*The same level of protection trusted by banks, means your videos cannot be read even if the SD card is removed.

# Highlights

## Easy to use mobile app

View, record & respond from wherever you are with the easy-to-use Philips Home Safety app. Once you've completed the guided onboarding in minutes, smart modes make it quick and easy to tailor your system to your needs.

## Full HD & Colour Night Vision

Feel relaxed day & night knowing you can see what's happening even when you're not there. See in full colour at night and deter unwanted visitors with the motion-triggered spotlight.

## Smart Alerts

Feel reassured with instant notifications direct to your phone when your cameras detect movement, noise or people. Differentiate between the three, and choose when and what notifications you receive based on your mode settings.

## No Hard Wiring

Easy to install yourself in no time at all. Wi-Fi connected and controlled via the Philips Home Safety app from wherever you are.

## Smart Detection

Keep your home safe with person detection and more. Choose when and what your system responds to based on your mode settings. Automatically activate the siren, record a video or send a notification to your phone.

## Weather Resistant

Built tough to withstand rain, dust, heat & cold. You can place your camera anywhere, indoors or outdoors, and feel confident your home is protected, whatever the weather.

## Pan & Tilt

With 350° horizontal and 135° vertical coverage, you'll capture what other cameras can't. Feel total control with pan and tilt, or use auto motion tracking to automatically follow and record movement.
