SETUP

Setting up your Samsung 25W Wall Charger is straightforward:

1. **Obtain a Compatible Cable:** Ensure you have a USB Type-C to USB Type-C charging cable. For optimal performance, use a Samsung-approved cable.
2. **Connect Cable to Adapter:** Insert one end of the USB Type-C cable into the USB-C port on the Samsung 25W Wall Charger.
3. **Plug into Wall Outlet:** Insert the wall charger into a standard electrical wall outlet.
4. **Connect to Device:** Insert the other end of the USB Type-C cable into the charging port of your compatible mobile device.

The illustration shows a Samsung 25W Wall Charger (a black square with two prongs) connected to a black USB Type-C cable. The other end of the cable is plugged into a smartphone. Above the charger, a pair of white wireless earbuds is shown. To the right of the charger, a tablet is shown. The background is white with a subtle shadow effect under the devices.

WIDE COMPATIBILITY

One adapter. Multiple charging possibilities.

Meet your new go-to power adapter for all your charging needs.¹ Whether it's powering up your workstation, fueling your Galaxy devices or giving life to any Type-C-cable-compatible gadget, this adapter has got you covered.²

¹Power output depends on capacity of device being charged; if the device has a lower charging capacity then the power output will adjust down.
²Charging cable only included with specific models; use only Samsung-approved chargers and USB-C cable. To avoid injury or damage to your device, do not use incompatible, worn or damaged batteries, chargers or cables.

OPERATING INSTRUCTIONS

Once connected, the charger will automatically begin charging your device. The Samsung 25W Wall Charger supports Super Fast Charging (SFC) for compatible devices.

- **Super Fast Charging:** SFC is supported with Galaxy smartphones with 25W charging capacity or above, and other SFC-capable devices such as iPhone 8 or higher. SFC is only active when using the USB Type-C port of the charger.
- **Charging Indication:** Your device's screen will typically display a charging indicator, often showing "Super Fast Charging" if compatible.
- **Power Output:** The actual power output will adjust based on the charging capacity of the connected device. If a device has a lower charging capacity, the power output will automatically reduce to match.

POWER YOUR DEVICE SAFELY

Charge with confidence

The new 25W Power Adapter helps protect your devices from overcurrent, short circuits, high temperatures, leakage and more.¹

¹Charging cable only included with specific models; use only Samsung-approved chargers and USB-C cable. To avoid injury or damage to your device, do not use incompatible, worn or damaged batteries, chargers or cables.

MAINTENANCE

Proper care and maintenance will extend the life of your charger:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the charger to strong impacts.

TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not charging.	Loose connection, faulty cable, power outlet issue, incompatible device.	◦ Ensure all connections are secure. ◦ Try a different USB Type-C cable. ◦ Test the charger in a different wall outlet. ◦ Verify your device is compatible with USB Type-C charging.
Slow charging.	Cable not supporting Super Fast Charging, device not SFC compatible, background apps.	◦ Use a high-quality USB Type-C cable designed for fast charging. ◦ Confirm your device supports Super Fast Charging at 25W. ◦ Close unnecessary background applications on your device.
Charger feels warm.	Normal operation during charging.	This is normal. If the charger becomes excessively hot or emits smoke/odor, unplug immediately and discontinue use.
