WHAT'S IN THE BOX

Carefully unpack your LUMIFORD HD50 headphones and ensure all items are present:

- 1 x LUMIFORD HD50 Wireless Over-Ear Headphones
- 1 x Warranty Card
- 1 x User Manual
- 1 x Micro USB Charging Cable (not explicitly listed but implied by charging time)
- 1 x Aux Cable (not explicitly listed but implied by Aux support)

PRODUCT OVERVIEW

The LUMIFORD HD50 headphones feature 40mm HD True Bass Drivers for a rich audio experience. They are designed for comfort and versatility.

CHARGING THE HEADPHONES

Before first use, fully charge your headphones. A full charge takes approximately 2.5 hours.

1. Connect the Micro USB charging cable to the charging port on the headphones.

2. Connect the other end of the cable to a USB power source (e.g., computer USB port, wall adapter).
3. The LED indicator will show the charging status. It typically turns off or changes color when fully charged.

A full charge provides up to 10 hours of music playtime.

OPERATING INSTRUCTIONS

Power On/Off

- **To Power On:** Press and hold the Power button until the LED indicator lights up.
- **To Power Off:** Press and hold the Power button until the LED indicator turns off.

Bluetooth Pairing

The headphones utilize Bluetooth v5.0 for stable wireless connectivity.

1. Ensure the headphones are powered off.
2. Press and hold the Power button for approximately 5-7 seconds until the LED indicator flashes red and blue, indicating pairing mode.

3. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "LUMIFORD HD50" from the list of devices.
5. Once connected, the LED indicator will typically show a solid blue light or flash slowly.

The headphones support dual phone connection, allowing you to pair with two devices simultaneously.

Multi-Connection Modes

The HD50 headphones offer multiple ways to enjoy your audio:

- **Bluetooth:** Wireless connection to compatible devices.
- **3.5mm Aux Plug Option:** Connect via an audio cable for wired listening.
- **Micro SD In/Playing:** Insert a Micro SD card with audio files for direct playback.
- **FM Radio:** Tune into FM radio stations.

Calling Functions

The in-built HD Microphone provides a clear calling experience.

- **Answer Call:** Press the Multi-function button once.
- **End Call:** Press the Multi-function button once during a call.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Redial Last Number:** Double-press the Multi-function button.

Voice Assistant

Access your device's voice assistant (Google Assistant/Siri) directly from the headphones.

- **Activate Voice Assistant:** Press the dedicated Voice Assistant button (or Multi-function button, depending on model specifics) once.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your headphones.

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures. When traveling, utilize the foldable design to protect them.
- **Water Resistance:** The headphones are water resistant. Avoid submerging them in water or exposing them to heavy rain.
- **Battery Care:** To preserve battery life, charge the headphones regularly, even if not in use for extended periods. Avoid fully discharging the battery frequently.

TROUBLESHOOTING

If you encounter issues with your LUMIFORD HD50 headphones, refer to the following common solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Headphones do not power on	Ensure the headphones are charged. Connect to a power source and try again.
Cannot pair via Bluetooth	Ensure headphones are in pairing mode (flashing red/blue LED). Turn off and on Bluetooth on your device. Move closer to the device.
No sound or low volume	Check volume levels on both headphones and connected device. Ensure headphones are properly paired or Aux cable is fully inserted.
Poor call quality	Ensure the microphone is not obstructed. Move to an area with less background noise. Check device's network signal.
FM Radio not working	Ensure you are in an area with good FM signal. Try rescanning for stations.
