1. INTRODUCTION

Thank you for choosing the Foxin Roar 308 Wired Stereo Headphones. This manual provides essential information for the proper setup, operation, and maintenance of your headphones. Please read it carefully before use to ensure optimal performance and longevity of the product.

The Foxin Roar 308 headphones are designed to deliver high-quality audio with deep bass, featuring 40mm speaker drivers and an in-built HD microphone for clear communication. The 1.2-meter tangle-free TPE cable ensures durability and ease of use.

2. PACKAGE CONTENTS

Ensure all items are present in the package:

- Foxin Roar 308 Wired Headphone - 1 unit

3. PRODUCT OVERVIEW

The Foxin Roar 308 headphones are engineered for an immersive audio experience and comfortable wear. Key features include:

- **Wired Over-Ear Stereo Headphones:** Designed for high-quality audio immersion.
- **Deep Bass & HD Mic:** Provides powerful bass and clear communication.
- **Comfortable Ear Cushions:** Ensures comfort during extended listening sessions.
- **40mm Speaker Driver:** Delivers rich and detailed sound.
- **Tangle-Free Cable:** Features a 1.2m flat texture TPE cable to prevent tangling.

4. SETUP INSTRUCTIONS

The Foxin Roar 308 headphones are designed for simple plug-and-play functionality.

1. **Connect to Audio Source:** Locate the 3.5mm audio jack on your device (e.g., smartphone, tablet, laptop, desktop computer, gaming console controller).
2. **Insert Jack:** Firmly insert the L-shape 3.5mm audio jack of the headphones into the audio port of your device. Ensure it is fully seated to prevent sound issues.
3. **Adjust Fit:** Place the headphones over your ears. Adjust the headband for a comfortable and secure fit. The ear cushions are designed for comfort during long listening sessions.

No additional drivers or software are required for basic audio and microphone functionality.

5. OPERATING INSTRUCTIONS

Once connected, you can begin using your Foxin Roar 308 headphones.

5.1 Audio Playback

- Start playing audio from your connected device. Sound will be routed through the headphones.
- Adjust the volume using the volume controls on your connected device. The headphones may also feature an inline volume control on the cable (refer to product specifics if available, otherwise use device controls).

5.2 Microphone Usage

- The in-built HD microphone is automatically active when the 3.5mm jack is fully inserted into a compatible port that supports both audio output and microphone input (e.g., a combined headset jack on laptops or smartphones).
- For devices with separate audio output and microphone input ports, you may need a 3.5mm splitter adapter (not included) to use both functions simultaneously.
- Ensure the microphone is positioned appropriately for clear voice capture during calls or gaming.

5.3 Inline Controls (if applicable)

Some models may include an inline remote on the cable. If present, these controls typically allow you to:

- **Volume Control:** Adjust audio playback volume.
- **Microphone Mute:** Toggle the microphone on or off.
- **Call Management:** Answer or end calls with a single press.

Refer to the specific inline remote design for exact button functions.

6. MAINTENANCE

Proper care ensures the longevity and performance of your headphones.

- **Cleaning:** Use a soft, dry cloth to wipe the earcups and headband. Do not use harsh chemicals or abrasive materials. For ear cushions, gently wipe with a slightly damp cloth if necessary, and allow to air dry completely before use.
- **Storage:** Store the headphones in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable by coiling it neatly.
- **Avoid Moisture:** Do not expose the headphones to water or excessive moisture.
- **Handle with Care:** Avoid dropping the headphones or subjecting them to strong impacts. Do not pull the cable forcefully when disconnecting.

7. TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common solutions:

Problem	Possible Solution
No sound from headphones.	• Ensure the 3.5mm jack is fully inserted into the device's audio port. • Check the volume level on your device and on any inline controls. • Test the headphones with another audio source to rule out device issues. • Ensure the audio output setting on your device is set to the connected headphones.

Problem	Possible Solution
Microphone is not working.	• Verify the 3.5mm jack is fully inserted into a combined audio/mic port. • Check microphone settings on your device (e.g., input device selection, volume, mute status). • If your device has separate audio and mic ports, a splitter adapter may be required. • Test the microphone with another device if possible.
Sound is distorted or unclear.	• Ensure the 3.5mm jack is clean and free of debris. • Try adjusting the volume on your device. • Test with another audio source to determine if the issue is with the headphones or the source device.

8. SPECIFICATIONS

Detailed technical specifications for the Foxin Roar 308 Wired Stereo Headphones:

Brand	Foxin
Model Number	ROAR 308
Colour	Piano Black
Ear Placement	Over Ear
Form Factor	Over Ear
Noise Control	Sound Isolation
Audio Driver Type	Dynamic Driver
