Pairing Your Headphones

The Beats Solo 4 headphones offer one-touch pairing for both iOS and Android devices.

1. Ensure your Beats Solo 4 headphones are charged.
2. Turn on your headphones by pressing the power button.
3. Bring your headphones near your unlocked iOS or Android device.
4. A setup animation will appear on your device's screen. Follow the on-screen instructions to connect.
5. Once paired, your headphones will automatically connect to other devices signed into your iCloud account (for Apple users) or Google Play Services account (for Android users).

Apple and Android Compatibility

Enjoy seamless one-touch pairing, automatic account setup, and Find My or Find My Device.

Requires an iCloud account and a compatible Apple device running the latest operating system software or a compatible Android device running the latest operating system software with Google Play Services enabled.

OPERATING YOUR HEADPHONES

Controls

The controls for your Beats Solo 4 headphones are intuitively placed on the left ear cup:

- **'b' button:** Press once to play/pause audio or answer/end a call. Press twice to skip forward, three times to skip backward.
- **Volume Up/Down:** Use the buttons above and below the 'b' button to adjust volume.
- **Power Button:** Located on the right ear cup. Press once to check battery status. Press and hold to power on/off or initiate pairing mode.

Battery Life and Charging

Your Beats Solo 4 headphones provide extensive listening time:

- Enjoy up to 50 hours of listening time on a single full charge.
- **Fast Fuel:** A quick 10-minute charge provides up to 5 hours of playback when the battery is low.
- For wired listening, connect the 3.5 mm analog audio cable. This mode does not require battery power.

Up to 50 Hours of Battery Life

Plus endless listening via 3.5 mm audio cable, which requires zero battery power.

Testing conducted by Apple in March 2024 using preproduction Beats Solo 4 and software paired with iPhone 15 Pro units and pre-release software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50%. Testing consisted of full Beats Solo 4 battery discharge while playing audio until Beats Solo 4 stopped playback. Battery life depends on device settings, environment, usage, and many other factors.

Image: The Beats Solo 4 offers an impressive 50 hours of battery life for extended listening.

Audio Features

- **Personalized Spatial Audio:** Experience immersive sound with dynamic head tracking, making audio feel like it's coming from all around you.
- **Lossless Audio:** Connect via the USB-C or 3.5 mm audio cable to enjoy high-resolution lossless audio for superior sound fidelity.

Personalized Spatial Audio

Like being surrounded by 64 speakers at once.

Compatible hardware and software required. Works with compatible content in supported apps. Not all content available in Dolby Atmos. iPhone with TrueDepth camera required to create a personal profile for Spatial Audio, which will sync across Apple devices running the latest operating system software, including iOS, iPadOS, macOS, and tvOS.

Image: Personalized Spatial Audio provides an immersive listening experience, as if surrounded by multiple speakers.

Lossless Audio

Via USB-C or 3.5 mm audio cable

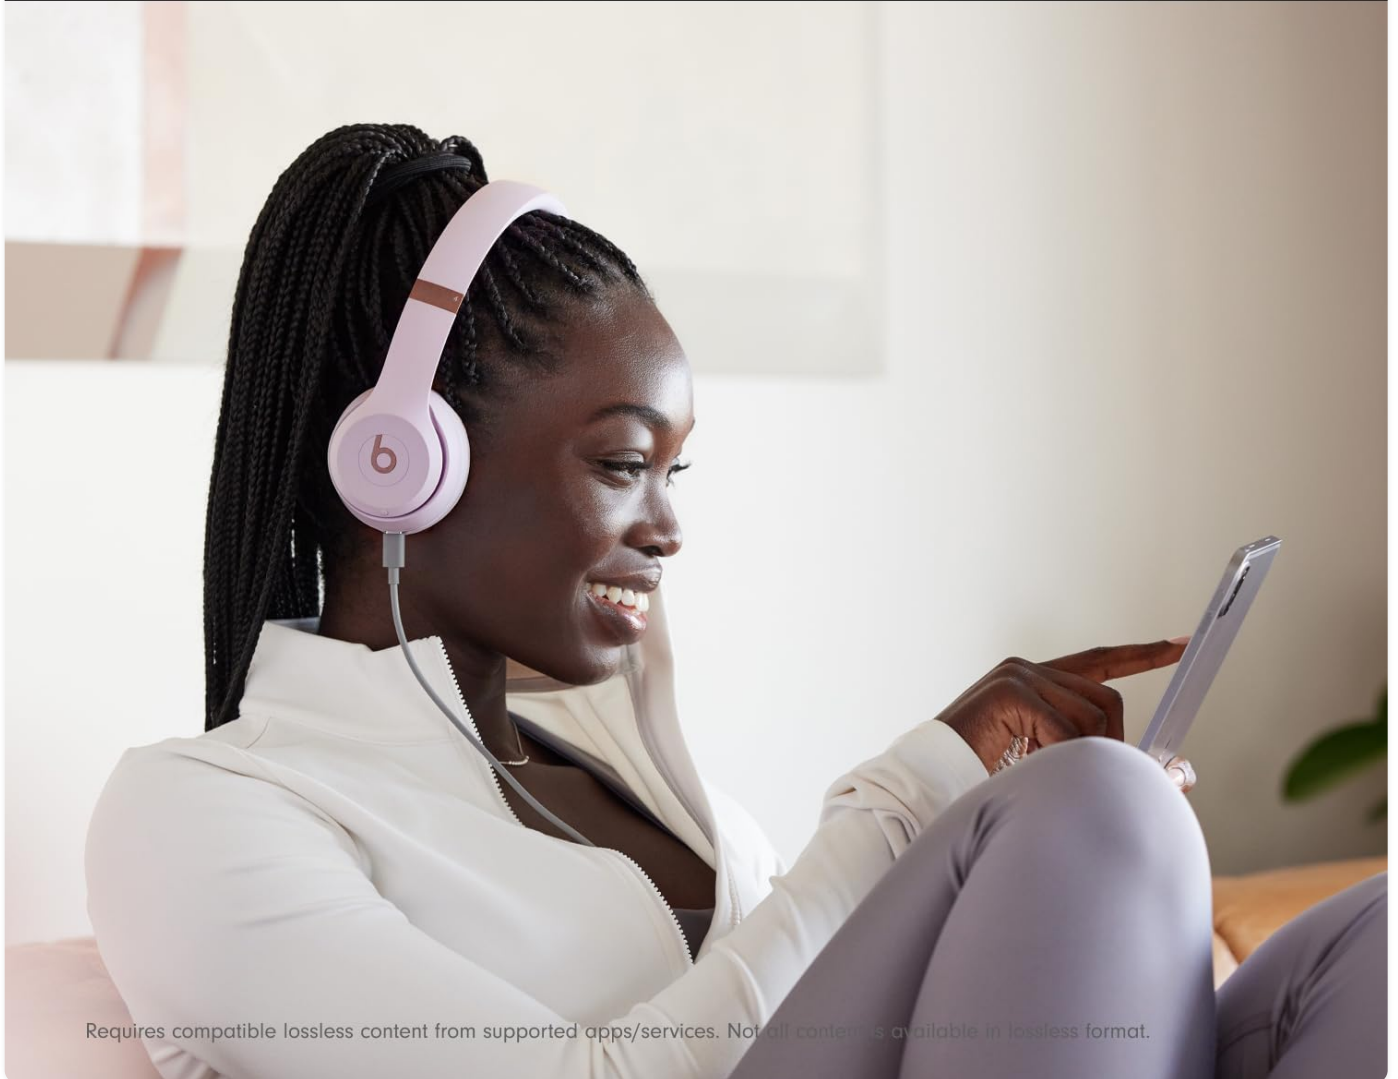

Image: Enjoy high-resolution lossless audio by connecting your Beats Solo 4 headphones via USB-C or 3.5 mm audio cable.

MAINTENANCE

To ensure the longevity and optimal performance of your Beats Solo 4 headphones, follow these maintenance guidelines:

- Keep the headphones clean by wiping them with a soft, dry, lint-free cloth.
- Avoid exposing the headphones to extreme temperatures, humidity, or liquids, as they are not water resistant.
- Store the headphones in their protective case when not in use to prevent scratches and damage.
- Do not attempt to disassemble or repair the headphones yourself, as this will void the warranty.

Compact & Lightweight

Foldable design with soft woven carrying case

Image: The foldable design and included carrying case make the Beats Solo 4 compact and easy to protect.

TROUBLESHOOTING

If you encounter any issues with your Beats Solo 4 headphones, try the following solutions:

- **No Power:** Ensure the headphones are fully charged using the provided USB-C cable.
- **Pairing Issues:** Turn off Bluetooth on your device, then turn it back on. Restart your headphones and try pairing again. Ensure no other devices are attempting to connect simultaneously.
- **No Sound:** Check the volume levels on both your headphones and your connected device. Ensure the headphones are properly paired. If using a wired connection, ensure the cable is fully inserted into both the headphones and the audio source.
- **Poor Sound Quality:** Try moving closer to your audio source to reduce interference. Ensure the audio source is playing high-quality content. For wired connections, check the cable for damage.
- **Controls Not Responding:** Restart your headphones. If the issue persists, try resetting them (refer to the Quick Start Guide for specific reset instructions).

SPECIFICATIONS
