4.6. Connectivity

The OPPO Find X8 5G supports 5G cellular technology, Bluetooth, NFC, and Wi-Fi for various connectivity needs. Access these settings via *Settings > Network & internet* or the quick settings panel.

5. MAINTENANCE

5.1. Battery Care

The device is powered by a 5630 mAh battery. To prolong battery life:

- Avoid extreme temperatures.
- Do not let the battery drain completely before recharging regularly.
- Use the original charger and cable for optimal charging performance.
- Manage background app usage and screen brightness to conserve power.

5.2. Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials, which can damage the finish or screen coating.

5.3. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Go to *Settings > About device > Up to date* to check for updates.

5.4. Storage Management

Your device comes with 256 GB of internal storage. To manage storage:

- Regularly delete unnecessary files, photos, and videos.
- Uninstall unused applications.
- Utilize cloud storage services for backups.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your OPPO Find X8 5G.

6.1. Device Not Turning On

- Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- Press and hold the Power button for at least 10-15 seconds to force a restart.

6.2. Charging Issues

- Verify that the charger and USB cable are securely connected to both the phone and the power outlet.
- Try using a different charger and cable to rule out accessory malfunction.
- Inspect the charging port for any debris or damage.

6.3. Overheating

While some warmth during heavy use or charging is normal, excessive heating can indicate an issue. One user review mentioned a "very bad heating issue for the first time charging."

- Avoid using the phone while it is charging, especially during initial setup or heavy tasks.
- Close background applications that consume significant resources.
- Reduce screen brightness.
- If overheating persists, contact customer support.

6.4. Apps Crashing or Freezing

- Force close the problematic app and reopen it.
- Clear the app's cache and data via *Settings > Apps > [App Name] > Storage & cache*
- Ensure the app is updated to its latest version.
- If the issue persists, consider uninstalling and reinstalling the app.

6.5. Network Connectivity Problems

- Toggle Airplane Mode on and off.
- Restart your device.
- Check your SIM card insertion and ensure it is properly seated.
- Reset network settings via *Settings > System settings > Backup and reset > Reset phone > Reset network settings*.
