SETUP

1. Unboxing and Initial Charge

Carefully remove all components from the packaging. Before first use, it is recommended to fully charge your VIVO T4 5G using the provided 90W FlashCharge adapter and cable. The device features a 7300mAh battery for extended usage.

2. SIM Card and Memory Card Installation

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) and/or microSD card (if applicable) into the tray with the gold contacts facing down. Ensure they are correctly seated.
4. Gently push the tray back into the device until it clicks into place.

3. Powering On and Initial Configuration

Press and hold the Power button until the VIVO logo appears. Follow the on-screen instructions to select your language, connect to a Wi-Fi network, sign in to your Google account, and set up security features like fingerprint or facial recognition.

OPERATING YOUR VIVO T4 5G

1. Navigating FunTouch OS 15

Your VIVO T4 5G runs on FunTouch OS 15, offering a user-friendly interface. Swipe gestures and navigation buttons allow for seamless interaction. Explore features like AI Note Assist, Super Documents, and Circle to Search for enhanced productivity and convenience.

4. Connectivity

The device supports 5G connectivity for high-speed internet. It also includes Bluetooth, USB, and Wi-Fi for various connection needs. Access these settings via the Quick Settings panel or the main Settings app.

MAINTENANCE

1. Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your VIVO T4 5G. Avoid using harsh chemicals or abrasive materials that could damage the finish or screen coating. The device features Military-Grade Durability, but proper care is still recommended.

2. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can find update options in the Settings menu under 'System update'.

3. Battery Care

To prolong the life of your 7300mAh battery, avoid exposing the device to extreme temperatures. Use only the official 90W FlashCharge adapter and cable. Avoid completely draining the battery frequently, and consider charging it before it drops below 20%.

TROUBLESHOOTING

Common Issues and Solutions

- **Device not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Apps crashing or freezing:** Close background applications. Clear the cache of the problematic app in Settings > Apps. If the issue persists, consider reinstalling the app.
- **Connectivity problems (Wi-Fi/Bluetooth/5G):** Toggle the respective connection off and on. Restart your device. For Wi-Fi, try forgetting the network and reconnecting.
- **Slow performance:** Clear unnecessary files and apps. Restart your device regularly. Check for system updates.
- **Battery draining quickly:** Review app usage in battery settings. Reduce screen brightness. Disable unnecessary features like GPS or background app refresh.

Factory Reset

If you encounter persistent software issues, a factory reset may resolve them. **Warning:** A factory reset will erase all data on your device. Back up important data before proceeding. Navigate to Settings > System > Reset options > Erase all data (factory reset).
