vivo V60 5G

Vivo V60 5G Smartphone User Manual

Model: V60 5G

1. INTRODUCTION

This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Vivo V60 5G smartphone. Please read this guide thoroughly to ensure optimal performance and longevity of your device.

Figure 1: Vivo V60 5G Smartphone (Mist Gray)

2. WHAT'S IN THE BOX

Upon unboxing your Vivo V60 5G, verify that all the following items are included:

- Vivo V60 5G Smartphone
- Phone Case
- Power Adapter (90W Flash Charge compatible)
- USB Cable
- SIM Tray Ejector
- Screen Protector (pre-applied or in box)

3. SETUP

3.1. Inserting SIM Card(s)

1. Locate the SIM card tray on the side of your device.
2. Insert the SIM tray ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) into the designated slots on the tray. Ensure the gold contacts face downwards. The Vivo V60 5G supports 5G + 5G Dual SIM Dual Standby.
4. Carefully reinsert the tray into the phone until it clicks into place.

3.2. Initial Power On and Setup

1. Press and hold the Power button (usually on the right side) until the Vivo logo appears.
2. Follow the on-screen instructions to select your language, connect to Wi-Fi, set up your Google account, and configure security features like the in-display optical fingerprint sensor.

3.3. Charging the Device

Connect the USB cable to the phone's USB-C port and the power adapter. Plug the adapter into a power outlet. The device supports 90W Flash Charge for rapid charging.

4. OPERATING YOUR DEVICE

4.1. Power On/Off and Restart

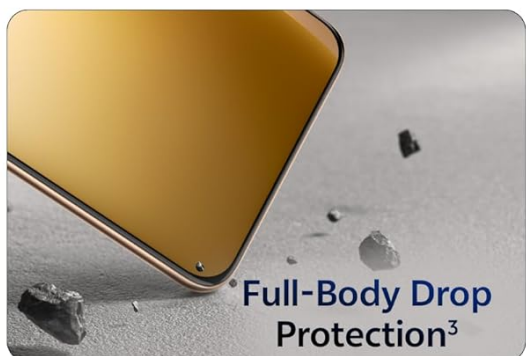

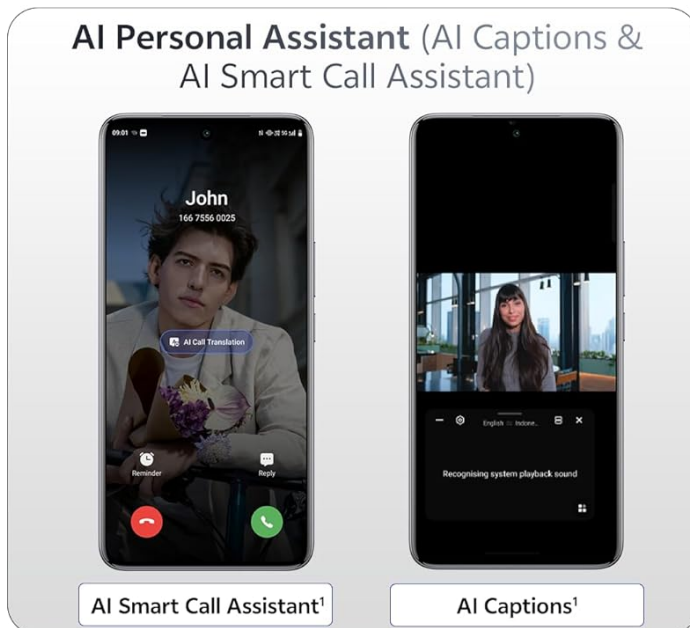

- **Power On:** Press and hold the Power button.
- **Power Off/Restart:** Press and hold the Power button until the power menu appears, then select 'Power off' or 'Restart'.

4.2. Basic Navigation

The Vivo V60 5G operates on Funtouch OS 15, offering intuitive gesture navigation and traditional three-button navigation. Customize your preference in Settings > System > System navigation.

4.3. Display Features

The device features a 17.20 cm (6.77" inch) Slim Quad Curved AMOLED display with a 120 Hz refresh rate, 1600 nits peak local brightness, and P3 wide color gamut support. It is certified by SGS for Low Blue Light, enhancing eye comfort.

vivo disclaims all warranty for accuracy and shall not be responsible for the results and results may vary basis experience and usage.
 ¹This product has been tested under controlled laboratory conditions, provides protection against tight dust, continuous immersion in water and high pressure and temperature water jets and is rated as IP68 and IP69 under IEC standard 60529-2013.
 IP68 water resistance test conditions: Submerged in static fresh water up to 1.5 meters for up to 120 minutes, with a temperature difference between the water and the device of less than 5°C. IP69 water resistance test conditions: A rotation speed of (5±1) rpm, nozzle angles of 0°, 30°, 60°, and 90°, a flow rate of (15±1) L/min, a water temperature of (80±5)°C, a test time of 30s/position, and the phone placed in a vertical position with the USB port facing down. This product is not a professional waterproof phone. The resistance to water, water jets and dust is not permanent and may be reduced with daily use. Do not immerse the phone in water during daily use or expose it to solutions such as seawater or other liquids such as beverages. Do not charge the phone when it is wet; instead, clean and dry it immediately. Damage caused by liquid ingress is not covered by warranty. | ²The tests were conducted under controlled conditions in vivo labs. Since mobile phones are precision electronic devices, there is still a risk of damage from drops. Please be careful to avoid dropping the phone or subjecting it to any form of impact.

6500mAh

90W FlashCharge**

*vivo v60 (mist gray version with thickness 0.753cm) is the slimmest smartphone in 6500mAh battery category, according to internal research as of 11.07.2025. | **V60 is equipped with vivo standard charger, and supports up to 90W of charging power, subject to actual use and various external factors including electricity output.

Figure 6: 6500mAh Battery and 90W FlashCharge

7. AI FEATURES

The device integrates advanced Artificial Intelligence capabilities to enhance user experience:

- **AI Personal Assistant:** Includes AI Captions and AI Smart Call Assistant for intelligent communication support.
- **Gemini Integration:** Connected Apps & Gemini Live provide enhanced AI functionalities and smart interactions.

8. WATER AND DUST RESISTANCE

The Vivo V60 5G is certified with IP68 and IP69 ratings, indicating top-grade water and dust resistance. This allows the device to be submerged in still fresh water up to 1.5 meters deep for up to 120 minutes. It is important to note that water and dust resistance may decrease over time with normal wear and tear. Damage caused by liquid immersion is not covered under warranty if the device is not used according to instructions.

9. SECURITY

For maximum data security, the Vivo V60 5G features an in-display optical fingerprint sensor. This allows for quick and secure unlocking of your device and authentication for various applications.

10. MAINTENANCE

10.1. Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials. For stubborn smudges, a slightly damp cloth with water is acceptable. Ensure all ports are dry before charging.

10.2. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Navigate to Settings > System update to check for available updates.

10.3. Battery Care

To prolong battery life, avoid exposing the device to extreme temperatures. It is recommended to keep the battery charge between 20% and 80% for optimal long-term health. Use only the official Vivo charger and cable.

10.4. Storage Management

Periodically review and delete unnecessary files, apps, and media to free up storage space and maintain device performance. Utilize cloud storage services for backups of important data.

11. TROUBLESHOOTING

11.1. Common Issues and Solutions

- **Device not turning on:** Ensure the battery is charged. Connect to the charger for at least 15 minutes, then try powering on.
- **Apps crashing/freezing:** Close the app and reopen it. If the issue persists, clear the app's cache (Settings > Apps > [App Name] > Storage > Clear cache).
- **Network connectivity issues:** Toggle Airplane Mode on and off. Restart the device. Check SIM card insertion.
- **Slow performance:** Close background apps. Clear cache. Ensure sufficient storage space.

11.2. Factory Reset

If persistent issues cannot be resolved, a factory reset may be necessary.**Warning:** This will erase all data on your device. Back up important data before proceeding. Navigate to Settings > System > Reset options > Erase all data (factory reset).

12. SPECIFICATIONS
