12. TROUBLESHOOTING

This section addresses common issues you might encounter with your realme C85 5G Smartphone.

Common Issues and Solutions:

- **Device not powering on:** Ensure the battery is charged. Connect the phone to the charger for at least 10 minutes, then try powering on again. If it still doesn't turn on, perform a forced restart by holding the Power button for 10-15 seconds.
- **Slow performance:** Close unnecessary background applications. Clear cache from apps. Check for system updates. If issues persist, consider a factory reset (back up your data first).
- **Battery draining quickly:** Reduce screen brightness. Disable unused features like Wi-Fi, Bluetooth, GPS when not needed. Limit background app refresh. Check battery usage in settings to identify power-hungry apps.
- **Network connectivity issues:** Ensure your SIM card is correctly inserted. Check if airplane mode is off. Restart your device. If problems persist, contact your network provider.

- **Camera not working:** Restart the camera app or the phone. Clear the camera app's cache and data in settings. Ensure no physical obstruction is blocking the lens.
