realme 15X 5G Smartphone User Manual

Model: realme 15X

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your realme 15X 5G Smartphone. Please read it carefully before using your device.

2. WHAT'S IN THE BOX

Verify that all items are present in the package:

- realme 15X 5G Smartphone
- Power Adapter
- USB Cable
- SIM Tray Ejector
- Phone Case

Manuals+

3.1 Inserting the SIM Card

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM tray ejector tool into the small hole next to the tray and press firmly until the tray pops out.
3. Place your Nano-SIM card(s) and/or microSD card into the tray with the gold contacts facing down.

4. Carefully reinsert the tray into the phone.

3.2 Powering On/Off

- To power on: Press and hold the Power button until the realme logo appears.
- To power off: Press and hold the Power button, then select 'Power off' from the options.

3.3 Initial Setup

Upon first power-on, follow the on-screen instructions to:

- Select your language.
- Connect to a Wi-Fi network.
- Sign in with your Google account.
- Set up security features (fingerprint, face unlock, PIN/pattern).

4. OPERATING INSTRUCTIONS

4.1 Display

The realme 15X features a 6.8-inch display with a 144Hz refresh rate for smooth visuals and reduced lag. It offers up to 1200 nits peak brightness for clear visibility even in bright sunlight, enhanced by AI Outdoor Clarity.

5. MAINTENANCE

5.1 Cleaning Your Device

- Use a soft, lint-free cloth to clean the screen and body of the phone.

- Avoid using harsh chemicals or abrasive materials.
- If the device gets wet, wipe it dry immediately with a clean cloth.

5.2 Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. Navigate to **Settings > About phone > Software update**.

6. TROUBLESHOOTING

6.1 Common Issues and Solutions

Issue	Solution
Device not turning on	Ensure the battery is charged. Connect to the charger for at least 10 minutes, then try powering on.
Apps crashing or freezing	Close the app and reopen it. Clear the app's cache (Settings > Apps > [App Name] > Storage > Clear cache). Restart the phone.
Poor battery life	Reduce screen brightness, disable unnecessary features (GPS, Bluetooth, Wi-Fi when not in use), close background apps. Check battery usage in Settings to identify power-hungry apps.
Network connectivity issues	Toggle Airplane Mode on and off. Restart the device. Check SIM card insertion. Reset network settings (Settings > System > Reset options > Reset Wi-Fi, mobile & Bluetooth).

6.2 Factory Reset

If issues persist, a factory reset may be necessary. This will erase all data on your phone. **Backup your data before proceeding.**

Advertisements

1. Go to **Settings > System > Reset options**.
2. Select **Erase all data (factory reset)**.
3. Confirm your decision and enter your PIN/pattern if prompted.
