Logitech MX Keys Illuminated Wireless Keyboard User Manual

Model: MX Keys (920-009294)

Advertisements

INTRODUCTION

The Logitech MX Keys is an advanced wireless illuminated keyboard designed for efficiency, stability, and precision. It features spherically dished keys for comfortable typing and smart backlighting that adjusts to your environment. This manual provides instructions for setting up, operating, maintaining, and troubleshooting your MX Keys keyboard.

SETUP

Your MX Keys keyboard can be connected to your device using either the included Unifying USB Receiver or via Bluetooth Low Energy technology.

Image: The Logitech MX Keys keyboard with its accompanying Unifying USB receiver, which enables wireless connectivity.

Advertisements

2. Plug the Unifying USB Receiver into an available USB port on your computer.
3. Turn on the keyboard using the power switch located on the back edge.
4. The keyboard should automatically connect to the receiver. If not, use the Logitech Options software to pair the devices.

Connecting via Bluetooth

1. Ensure your device has Bluetooth enabled.
2. Turn on the keyboard using the power switch.
3. Press and hold one of the Easy-Switch keys (1, 2, or 3) for three seconds until the LED light on the key starts blinking rapidly. This indicates the keyboard is in pairing mode.

4. On your device, go to Bluetooth settings and select "MX Keys" from the list of available devices to complete the pairing process.

OPERATING INSTRUCTIONS

Perfect Stroke Keys

The keys are designed with a spherical dishing that matches the shape of your fingertips, providing a comfortable and precise typing experience. The increased key stability reduces noise and optimizes responsiveness.

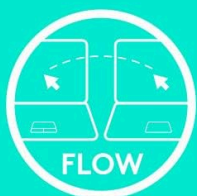

**PERFECT STROKE KEYS – FLUID,
EFFICIENT, RESPONSIVE**

Smart Illumination

The keyboard features smart backlighting that automatically adjusts to ambient light conditions. The backlighting also lights up when your hands approach the keyboard and fades when you move away, conserving battery life.

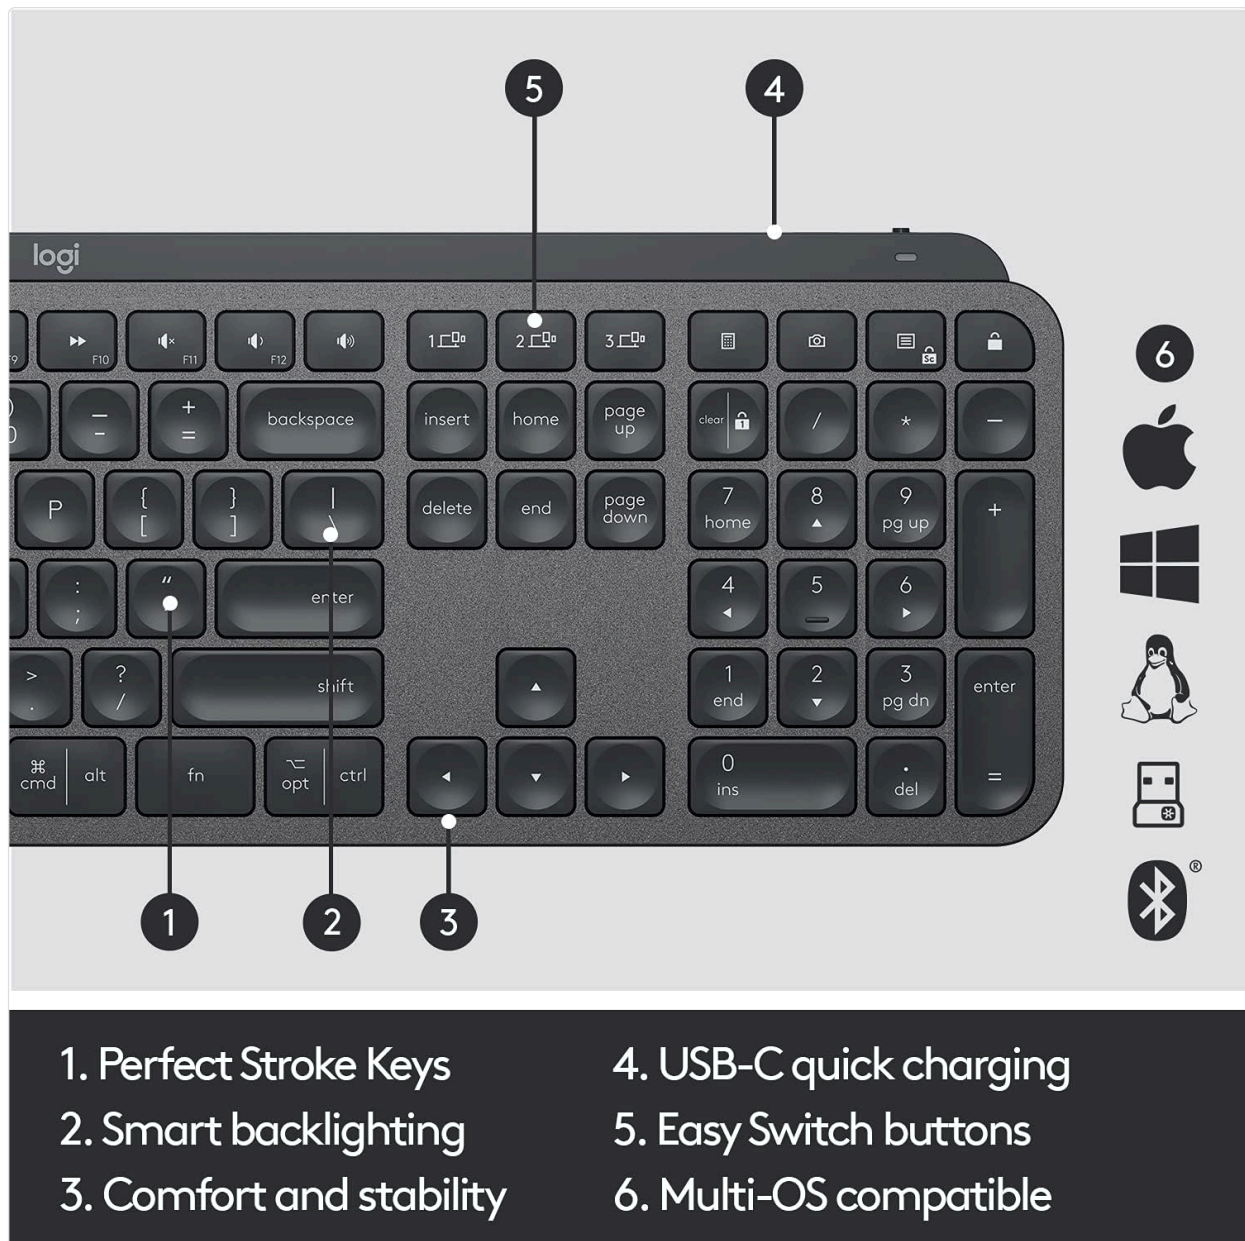

TYPE ON MULTIPLE COMPUTERS IN ONE FLUID WORKFLOW

Image: The Logitech MX Keys keyboard with its smart backlighting illuminated, demonstrating how it adapts to the environment.

Flow Cross-Computer Control

If you use multiple computers, the MX Keys keyboard supports Logitech Flow, allowing you to type on multiple computers in one fluid workflow. This feature requires a Logitech Flow-enabled mouse and the Logitech Options software.

Function Keys and Customization

The top row of keys includes media controls, brightness adjustments, and other function keys. These can be customized using the Logitech Options software to suit your workflow.

MAINTENANCE

Charging the Keyboard

to a USB power source.

Cleaning

To clean your keyboard, use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

Keyboard Not Connecting

- Ensure the keyboard is turned on and fully charged.
- If using the Unifying Receiver, try plugging it into a different USB port.
- If using Bluetooth, ensure your device's Bluetooth is on and the keyboard is in pairing mode (blinking LED on Easy-Switch key).

Backlighting Not Working

- Check the battery level; low battery can disable backlighting.
- Ensure the ambient light sensor is not obstructed.
- Adjust backlighting brightness using the function keys (F5/F6 or OPT+F6/F7 depending on OS).

Keys Not Responding

- Clean around the affected keys to remove any debris.
- Ensure the keyboard is properly connected.
- If the issue persists, contact Logitech support.

SPECIFICATIONS

Feature	Detail
Brand	Logitech
Model Name	MX Keys
Item Model Number	920-009294
Connectivity Technology	Bluetooth, USB (Unifying Receiver)
Compatible Devices	Laptop, PC, Tablet (Windows, macOS, Linux, iOS, Android)
Keyboard Description	Multi Functional, Membrane
Special Feature	Ergonomic, Low-Profile Key, Rechargeable, Smart Illumination, Flow Compatible
Color	Graphite
Number of Keys	104
Item Weight	1.9 pounds
Product Dimensions (LxWxH)	16.9 x 0.8 x 5.1 inches
Power Source	Battery Powered (1 Lithium Polymer battery included)
Battery Life	Up to 10 days (backlighting on), up to 5 months (backlighting off)
Wireless Range	10 meters (33 feet)
