Era 100 SL

Overview

The compact smart speaker designed for room-filling sound

- Powerful, room-filling sound with balanced stereo, woofer, tweeters and Bass Reflex ports
- Tuned by Sonos for APT-X® Bluetooth® and AAC 2 music
- Connect to Wi-Fi® and Ethernet for high-quality streaming
- Pair for a 2.0 stereo speaker experience or add another one for two-room sound with the Sonos Boost
- Use **Trueplay** tuning to adapt to your room's acoustics

Control and lights

Volume control
- Volume slider: Light on top 5
- Volume down: Light on top 4

Play/Pause
- Press to play or pause music
- Press and hold to skip forward to the next track

Input/Previous
- Press to play the last track
- Press twice to skip backward to the previous track

Note: You can also double-tap or triple-tap the touch surface to skip tracks.

Status light
- Flashes white when you turn on
- Flashes white when you connect to a network
- Flashes amber when you disconnect from a network

Note: When the Sonos Setting to Limit Volume is turned on, the light flashes white when you reach the volume limit.

Create the ultimate home theater system in 2 PCT. Combine Era 100 with Arc, Sub and One SL.

Learn more

Connector panel

Ethernet/Line-in
- Connect Ethernet for more stable connection
- Connect Line-in for analog audio

USB-C port
- Add a USB-C cable to connect a Sonos Line-in adapter (sold separately) to connect a turntable, CD player or other analog audio source
- Add a USB-C cable to connect a Sonos Amp to create a surround system
- **Ethernet:** Use the Sonos Ethernet Adapter (sold separately) to connect to a wired network
- **Caution:** Do not use this port to charge a device. Connecting a USB device may damage the device or your speaker.

Select a location

Place your speaker in the room where you'll enjoy it. Consider which sound is best suited to your favorite music. Then, place your speaker on a flat surface or mount it on the wall. Learn more about placement options in the Sonos Guide for Better Sound.

Learn more Learn how to mount your speaker on the wall.

Learn more Learn more about placement options in the Sonos Guide for Better Sound.

Bluetooth pairing

Pair your Bluetooth device directly to the speaker.

1. Press and hold Bluetooth button on the back of the speaker until you hear a tone and status light flashes white.
2. Select your speaker from the Bluetooth menu on your device.

Note: Only one Bluetooth device can be connected at a time. Your mobile device will automatically connect next time.

Learn more

Line-in

Connect a turntable, CD player or other analog audio source to your speaker. You'll need a Sonos Line-in adapter (sold separately) and a USB-C cable. Then, connect the Line-in adapter to the speaker's USB-C port and the audio source to the Line-in adapter.

Learn more

Trueplay™

Trueplay tuning is the ultimate way to tune your speaker to the room you're playing in. It uses the microphone on your iOS device to analyze the unique acoustics of your room and then tunes your speaker accordingly.

For the best results, Trueplay tuning is done when the room has as much as possible:

- Furniture in its normal position
- Windows and doors closed
- Minimal fluctuation in background noise

Then, tune your speaker:

- Using the Sonos app

Set up stereo pair

Set up two identical speakers in the same room as a stereo pair. Stereo pair separates the left and right channels of your music, creating a wider soundstage.

1. Open the Sonos app and select **Settings**.
2. Select the speaker you want to use as the right speaker.
3. Scroll down and select **Create Stereo Pair**.

Learn more

Set up surrounds

Set up your Sonos Arc with wireless speakers to create a surround system. Add Sonos Sub for more bass and Sonos One SL speakers for more surround sound.

1. Make sure your speakers are on the same network and your Sonos Arc is connected to your TV.
2. Open the Sonos app and select **Settings**.
3. Select your Arc and scroll down and select **Home theater** to get started.

Learn more Learn how to connect your TV to your Sonos Arc.

Surround levels settings

Adjust the surround speaker sound level for your room. These settings are also helpful:

Surround	Turn surround sound On or **Off**.
Format	Set surround sound to **Ambient** or **Full**.
Night sound	Adjust sound volume for music.
Voice Enhance	Adjust the **Off**, **Low**, **Medium**, or **High** level for dialogue clarity.

Product settings

You can change the settings for your Era 100 SL.

1. Open the Sonos app.
2. Select **Settings**.

Room Name	If you have two speakers in one room, you can assign a stereo pair.
Turn off Trueplay	You can turn your speaker Off when the environment changes significantly, such as when you move furniture or open windows.
Trueplay Tuning	Trueplay tuning is the ultimate way to tune your speaker to the room you're playing in.
Mic	You can turn the mic Off to mute the microphones on your speaker. When the mic is muted, the status light is solid red. **Note:** Voice services, like Alexa, are not available when the mic is muted.
Trueplay	Trueplay tuning is the ultimate way to tune your speaker to the room you're playing in.
Volume Limit	You can set a maximum volume for each room.
Status Light	Turn the status light On or Off.
Touch Controls	Enable the touch controls on your speaker. You can also choose to lock the touch controls. **Learn more**
Safety Check (Available in Europe only)	Safety Check helps you set up your speaker for the first time. It also helps you check if your speaker is working properly.
Legal	When connected to the Sonos app, you can view the following: • **Terms of Use**: Provides access to the Sonos Terms of Use. • **Privacy Policy**: Provides access to the Sonos Privacy Policy. • **Open Source Licenses**: Provides access to the Sonos Open Source Licenses. • **Safety Notice**: Safety information for the speaker, such as recommended placement and how to avoid hearing damage. • **Regulatory Notice**: Regulatory information for the speaker, such as the model number.

Zones

Create a group of multiple speakers with one or more to set up and control as a single zone. Or, create a zone with two speakers in the same room as a stereo pair. Then, add more speakers to the zone as surrounds or a subwoofer. Group speakers in different rooms to play the same music throughout your home. Or, play different music in each room. Add speakers to a group to play the same music in more than one room. Ungroup speakers to play different music in each room. Create a zone with two speakers in the same room as a stereo pair. Then, add more speakers to the zone as surrounds or a subwoofer. Or, add a speaker to a stereo pair to create a zone with three speakers in the same room.

Learn more Learn how to group speakers in different rooms.

Learn more Learn how to create a stereo pair.

Learn more Learn how to add surrounds or a subwoofer to your zone.

Set up a zone

Group and manage zones with the Sonos app.

1. Open the Sonos app and select the **Rooms** tab.
2. Select **Manage**, and then select **Add Rooms**.
3. Select the speakers you want to group together, and then select **Done**.

Manage, add, and separate your zones

- Add a speaker to your zone: Drag the speaker to the zone in the Sonos app.
- Remove a speaker from your zone: Drag the speaker out of the zone in the Sonos app.

Identify speakers in a zone

Identify speakers in a zone with the Sonos app and the Play and Volume buttons on the speaker. Select a speaker in the Sonos app, and then press the Play button or the Volume Up button on the speaker. You can also turn on the status light in the Sonos app to identify speakers in a zone.

Accessories

Find the perfect accessory for your Sonos speaker. Add wall mounts for your Era 100 speakers, a subwoofer for more bass, surround speakers for more sound, and a Sonos Line-in adapter for turntables.

Era 100 Stand

Tune-up sound quality for Era 100 and Era 300 speakers with this stand. Available in black or white.

Learn more Learn how to set up your Era 100 Stand.

1. Remove the stand from the speaker's power cable by slowly pulling the stand away from the speaker. Then, remove the speaker from the box.

What's in the box?

- Era 100 Stand (one stand)
- Instructions
- 1 tabletop
- 1 wall mount
- 1 screwdriver bit
- 1 screwdriver bit extension

Need your own screwdriver?

- Phillips head screwdriver

Set it up

1. After unwinding any of the excess power cable from the speaker, plug the power cable into the power outlet. Then, plug the other end of the power cable into the speaker.

Tip: Use the power cable clip to keep the excess power cable out of the way.

2. Place the speaker with the tabletop face down on a flat surface. Then, align the speaker with the tabletop.

3. Attach the stand from the speaker to the tabletop. Align the stand with the tabletop and then push down.

4. Turn the speaker and the stand over. Then, slide the stand into the speaker. Align the stand with the speaker and then push down.

5. Plug the power cable into the power outlet. Then, connect your Era 100 Stand.

6. Turn your speaker on to power it on. Then, connect to your network.

Era 100 Wall Mount

- The easy-to-install mount for Era 100 and Era 300 SL

Available in black or white. Learn how to set up your Era 100 Wall Mount.

Learn more Learn how to set up your Era 100 Wall Mount.

What's in the box?

- Era 100 Wall Mount (one mount)
- 2 wall anchors
- 2 wall screws
- Instructions

Need your own screwdriver and drilling machine? Check compatible screwdriver and drilling machine.

Need your own screwdriver?

- Phillips head screwdriver

Set it up

1. Place the wall mount flat against a wall and mark the location of the two screw holes. Then, remove the mount.

2. Insert the wall anchors into the wall. Then, insert the screws into the wall anchors. Leave a gap between the screw head and the wall that's slightly wider than the thickness of the mount.

3. Place the mount over the screws. Then, slide the mount down to lock it in place.

4. Plug the power cable into the power outlet. Then, connect your Era 100 Stand.

5. Turn your speaker on to power it on. Then, connect to your network.

Specifications

Feature	Description
AUDIO	
Amplifier	11-class Class D digital amplifiers
Tweeter	Two custom-designed tweeters, each driven by its own amplifier, for high-frequency sound
Woofer	One full-range woofer driven by its own amplifier, for low-frequency sound
Drivers per speaker	Two tweeters and one woofer
Bass ports	Two front-firing bass ports
Adjustable EQ	Use the Sonos app to adjust Bass, Treble, and Loudness
Trueplay™	The software measures the acoustics of the room and tunes the speaker to sound its best in that room
POWER + CONNECTIVITY	
Wi-Fi	**Wi-Fi and Ethernet** • Wi-Fi 5 (802.11ac) with dual-band, simultaneous 2.4 GHz and 5 GHz radios • Ethernet port for wired networking **Wi-Fi and Bluetooth Setup** • Wi-Fi 5 (802.11ac) with dual-band, simultaneous 2.4 GHz and 5 GHz radios • Bluetooth 5.0 **Ethernet Setup** • 10/100 Ethernet port for wired networking • Wi-Fi 5 (802.11ac) with dual-band, simultaneous 2.4 GHz and 5 GHz radios • Bluetooth 5.0 **Wi-Fi Setup** • Wi-Fi 5 (802.11ac) with dual-band, simultaneous 2.4 GHz and 5 GHz radios • Bluetooth 5.0
Bluetooth	Bluetooth 5.0 with dual-antenna beamforming radio **Bluetooth Audio Codecs** Bluetooth receiver supports AAC and SBC Bluetooth transmitter supports APT-X® and SBC
Power source	Auto-sensing 100V - 240V 50/60 Hz AC power supply
USB-C port	One USB-C port: • Connect to the sound processing and amplification circuitry in a Sonos Amp • Connect to the analog-to-digital converter in the Sonos Line-in adapter
LEDs	Status light
Touch UI	Buttons and controls for the basic operation of the speaker
Mic/s	Mic off button turns off digital mics, and cuts power to the analog circuitry

APPLICABLE MARKINGS	
Dimensions (H x W x D)	7.48 in x 6.42 in x 5.98 in / 190 x 163 x 152 mm
Weight	4.85 lb / 2.2 kg
Operating temperature	41°F to 104°F (5°C to 40°C)
Storage temperature	-4°F to 158°F (-20°C to 70°C)
Humidity resistance	Designed to withstand 90% relative humidity (RH) at 95°F (35°C) non-condensing. This is not intended for outdoor use.
Protection rating	Does not protect against ingress of water or other liquids
Package contents	Sonos Era 100 SL, 6 ft (1.8 m) power cable, Quick Start Guide
Color	Black/White

Note: Specifications subject to change without notice.

Important safety information

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth. Do not use cleaning products to clean the Sonos product. Use a dry cloth to clean.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Protect the power cable from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Unplug this apparatus during lightning storms or when unused for long periods of time.
12. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
13. **Warning:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
14. The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
15. To completely disconnect this apparatus from the power source, unplug the power cable from the outlet.
16. The mains plug of the power cable is used to disconnect the apparatus and should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.
17. Battery shall not be exposed to excessive heat such as sunshine, fire or the like.
18. Caution should be taken when using earphones or headphones with the product because excessive sound pressure (volume) from earphones or headphones can cause hearing loss.
19. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
20. Use only attachments/accessories specified by the manufacturer, such as the wall or ceiling mount listed in the user instructions. The combination of equipment and cart should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the equipment and cart combination to overturn.
21. Do not climb on or stand on any part of the speaker. Doing so could damage the speaker and cause serious injury.
22. Do not place the speaker in unstable locations that could cause it to fall over.
23. Do not place the speaker on furniture that can easily be turned over, such as furniture with wheels.
24. Do not place the speaker on sloped or unstable surfaces.
25. Do not place the speaker on shelves, bookcases or tables that are too small or unstable to support the speaker.
26. Do not place the speaker on the edge of a shelf, table or other surface.
27. Do not place the speaker on the floor where it can be walked on.
28. Do not place the speaker on a table that can be moved unless it is secured to the table.
29. Do not place the speaker on a table that is not level.
30. Do not place the speaker on a table that is not sturdy.
31. Do not place the speaker on a table that is not flat.
32. Do not place the speaker on a table that is not stable.
33. Do not place the speaker on a table that is not secure.
34. Do not place the speaker on a table that is not safe.
35. Do not place the speaker on a table that is not secure.
36. Do not place the speaker on a table that is not safe.
37. Do not place the speaker on a table that is not secure.
38. Do not place the speaker on a table that is not safe.
39. Do not place the speaker on a table that is not secure.
40. Do not place the speaker on a table that is not safe.
41. Do not place the speaker on a table that is not secure.
42. Do not place the speaker on a table that is not safe.
43. Do not place the speaker on a table that is not secure.
44. Do not place the speaker on a table that is not safe.
45. Do not place the speaker on a table that is not secure.
46. Do not place the speaker on a table that is not safe.
47. Do not place the speaker on a table that is not secure.
48. Do not place the speaker on a table that is not safe.
49. Do not place the speaker on a table that is not secure.
50. Do not place the speaker on a table that is not safe.
51. Do not place the speaker on a table that is not secure.
52. Do not place the speaker on a table that is not safe.
53. Do not place the speaker on a table that is not secure.
54. Do not place the speaker on a table that is not safe.
55. Do not place the speaker on a table that is not secure.
56. Do not place the speaker on a table that is not safe.
57. Do not place the speaker on a table that is not secure.
58. Do not place the speaker on a table that is not safe.
59. Do not place the speaker on a table that is not secure.
60. Do not place the speaker on a table that is not safe.
61. Do not place the speaker on a table that is not secure.
62. Do not place the speaker on a table that is not safe.
63. Do not place the speaker on a table that is not secure.
