5. TROUBLESHOOTING

If you encounter any issues with your washing machine, please refer to the following common troubleshooting steps before contacting customer service.

Common Issues:

- **Machine not starting:** Check if the power cord is securely plugged in and the water supply is turned on. Ensure the lid is properly closed.
- **Excessive vibration/noise:** Verify that the machine is on a level surface and all transit bolts (if any) have been removed. Ensure the load is balanced inside the drum.
- **Water not draining:** Check if the drain hose is kinked or blocked. Ensure the drain pump filter is clean.
- **Poor wash results:** Ensure you are using the correct amount and type of detergent for your water hardness. Do not overload the machine.

For more detailed troubleshooting or persistent issues, please consult the comprehensive user manual included with your product or contact IFB customer support.
