atomberg Aris Starlight Smart 1200mm

atomberg Aris Starlight Smart 1200mm BLDC Ceiling Fan User Manual

Model: Aris Starlight Smart 1200mm

1. INTRODUCTION AND OVERVIEW

The atomberg Aris Starlight Smart 1200mm BLDC Ceiling Fan is designed for optimal air delivery and energy efficiency. Featuring advanced Air+ Technology, this fan provides strong, smooth airflow and operates silently. It incorporates a BEE 5-star rated BLDC motor, consuming only 41W at maximum speed. The fan also includes smart control options and an integrated LED underlight.

Key features include:

- **Advance Air+ Technology:** Delivers enhanced airflow.
- **Energy-Efficient BLDC Motor:** 5-star rated, low power consumption.
- **Silent Operation:** Noise levels below 52 dB.
- **Smart Control:** Operable via remote, mobile app (Atomberg Home), Google Home, and Alexa.
- **LED Underlight:** Three color modes (Cool, Warm, Daylight) with adjustable intensity.
- **Durable ABS Blades:** Easy to clean and corrosion-resistant.

2. SETUP AND INSTALLATION

Installation of the atomberg Aris Starlight Smart fan is designed to be straightforward, though professional installation is recommended. The fan is compatible with various ceiling types, including false ceilings.

2.1 Package Contents

Before installation, ensure all components are present:

- 1 Blade set
- 1 Remote control
- 1 Motor box
- 2 Canopies
- 1 Downrod
- 1 Shackle kit
- Warranty card

2.2 False Ceiling Compatibility

The fan features a telescopic canopy system for seamless integration. For false ceilings or low ceiling heights, the top piece of the canopy can be replaced with an additional ceiling plate, and middle canopies adjusted as needed. For full height availability, the complete telescopic canopy set can be utilized.

2.3 Installation Service

Atomberg offers free installation services across India. To avail this service, contact the customer support team via the toll-free number or visit the official website.

3. OPERATING INSTRUCTIONS

The Aris Starlight Smart fan offers multiple control methods for convenience.

3.1 Universal Smart IR Remote

The included remote allows for quick adjustments:

- **Speed Adjustment:** Select from 6 speed levels.
- **Boost Mode:** Activates maximum airflow.
- **Timer Mode:** Sets the fan to turn off after a specified duration.

- **Sleep Mode:** Adjusts fan speed for comfortable sleep.

3.2 Smart Control via Mobile App and Voice Assistants

For advanced control and monitoring, use the Atomberg Home mobile app or integrate with voice assistants:

- **Atomberg Home App:** Download the app to control the fan, track usage, energy consumption, and savings.
- **Voice Control:** Compatible with Google Home and Alexa for hands-free operation.
- **Home Automation Platforms:** Supported on DIY and proprietary platforms like Homebridge, Home Assistant, Node-Red, ELAN, and Phynart.

3.3 LED Underlight Operation

The integrated LED underlight offers customizable ambiance:

- **Color Modes:** Switch between Cool, Warm, and Daylight settings.
- **Adjustable Intensity:** Modify the brightness level to suit your preference.
- **Control:** Operate the underlight using the remote control or the Atomberg Home App.

4. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your fan.

4.1 Cleaning the Fan

The ABS blades are designed for easy cleaning and are corrosion-resistant. To clean the fan:

1. Ensure the fan is turned off and power supply is disconnected before cleaning.
2. Use a dry microfiber cloth to wipe the blades and motor housing.
3. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
4. Regular cleaning prevents dust accumulation and maintains airflow efficiency.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your atomberg Aris Starlight Smart fan.

5.1 Fan Not Turning On

- Check if the main power supply to the fan is active.
- Ensure the remote control batteries are not depleted.
- Verify that the fan is properly connected to the power source.

5.2 Remote Control Not Responding

- Replace the batteries in the remote control.
- Ensure there are no obstructions between the remote and the fan's receiver.
- Confirm the remote is pointed directly at the fan.

5.3 App/Voice Control Issues

- Check your Wi-Fi connection and ensure the fan is connected to the network.
- Ensure the Atomberg Home app is updated to the latest version.
- Verify that the fan is properly linked to your Google Home or Alexa account.
- Restart your Wi-Fi router and the fan if connectivity issues persist.

5.4 Unusual Noise or Wobbling

- Ensure all blade screws and mounting hardware are securely tightened.
- Check if the blades are clean and free from debris.
- If the issue persists, contact customer support for professional assistance.

Note: The atomberg Aris Starlight Smart fan is designed to maintain consistent speed even during voltage fluctuations between 165V-285V.

6. SPECIFICATIONS

Feature	Specification
Brand	atomberg
Model Name	Aris Starlight Smart
Size	1200mm
