Crompton Rhino Plus 1250 Watt Heavy Weight Dry Iron

Model: ACGEI-RHINOPLUS

Advertisements

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the Crompton Rhino Plus 1250 Watt Heavy Weight Dry Iron. This manual provides essential information for the safe and efficient use of your appliance. Please read it

thoroughly before first use and keep it for future reference.

The Crompton Rhino Plus dry iron is designed for effective wrinkle removal from various fabrics, featuring a heavy soleplate for effortless gliding and a Golden American Heritage Coating for durability.

Included Components:

- 1 x Crompton Rhino Plus Dry Iron
- 1 x Warranty Card
- 1 x Instruction Manual

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and personal injury.

Advertisements

- Always ensure the voltage indicated on the rating label matches your mains supply voltage.
- Do not immerse the iron, power cord, or plug in water or any other liquid.
- Unplug the iron from the power outlet when filling with water (if applicable, though this is a dry iron), emptying, or when not in use. Allow it to cool completely before cleaning or storing.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner. Contact authorized service personnel for examination, repair, or adjustment.
- Close supervision is necessary when any appliance is used by or near children. Do not leave the iron unattended while connected to power or on an ironing board.
- The iron must be used and rested on a stable, heat-resistant surface.
- Do not let the cord touch hot surfaces.

- Never pull the cord to disconnect from the outlet; instead, grasp the plug and pull to disconnect.
- This appliance is for household use only. Do not use outdoors.
- **Caution:** The soleplate of the iron becomes extremely hot during use. Avoid direct contact with the hot soleplate.

3. PRODUCT FEATURES

The Crompton Rhino Plus dry iron is engineered with features to provide efficient and smooth ironing.

Advertisements

- **1250 Watt Power:** Ensures quick heating for faster ironing.
- **1.8 kg Heavy Weight:** The substantial weight assists in pressing out tough wrinkles with less effort.
- **Golden American Heritage Coating:** Provides enhanced gliding performance and contributes to the soleplate's longevity.
- **360-Degree Swivel Cord:** Allows for easy movement and flexibility during ironing, preventing tangles.
- **6 Pre-set Fabric Settings:** A variable temperature control dial with specific settings for different fabric types ensures optimal heat for each garment.

The iron features 1250 Watts of power for quick heating and time-saving.

Advertisements

Its 1.8 kg heavy weight aids in easy removal of tough wrinkles.

The Golden American Heritage Coating ensures better gliding and longer life for the soleplate.

Equipped with a thermostatic dial control offering 6 fabric settings to adjust temperature.

Advertisements

The 360-degree swivel cord allows for easy movement in all directions during ironing.

4. SETUP

1. **Unpacking:** Carefully remove the iron and all packaging materials from the box. Retain the packaging for future storage or transport if needed.

Advertisements

2. **Initial Inspection:** Inspect the iron for any signs of damage. Do not use the appliance if it appears damaged.
3. **Placement:** Place the iron on a stable, flat, and heat-resistant surface, such as an ironing board. Ensure there is sufficient space around the iron for safe operation.
4. **Power Connection:** Ensure your hands are dry before plugging the iron into a suitable 240V, 50Hz AC power outlet.

5. OPERATING INSTRUCTIONS

1. **Prepare Garment:** Ensure the garment is clean and suitable for dry ironing. Check the fabric care label for ironing instructions.
2. **Select Temperature:** Turn the temperature control dial to the appropriate setting for your fabric type. The dial has 6 pre-set fabric settings (e.g., Linen, Cotton, Wool, Silk, Synthetics). Start with lower temperatures for delicate fabrics and increase for heavier ones. If unsure, test on an inconspicuous area of the garment.
3. **Pre-heating:** Plug the iron into the power outlet. The indicator light will illuminate, indicating that the iron is heating up. Once the desired temperature is reached, the indicator light will turn off. The iron is now ready for use. The light will cycle on and off during ironing to maintain the selected temperature.
4. **Ironing:** Begin ironing your garment. The heavy weight of the iron will help smooth out wrinkles effectively. Move the iron smoothly over the fabric.
5. **After Use:** Once ironing is complete, turn the temperature control dial to the 'MIN' or 'OFF' position. Unplug the iron from the power outlet.
6. **Cool Down:** Allow the iron to cool down completely on its heel rest on a heat-resistant surface before storing.

Advertisements

6. CARE AND MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your iron.

- **Cleaning the Soleplate:** After the iron has cooled down, wipe the soleplate with a damp cloth and a non-abrasive cleaner if necessary. Do not use harsh scouring pads or metallic cleaners, as these can damage the Golden American Heritage Coating.
- **Cleaning the Body:** Wipe the exterior of the iron with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Cord Care:** Do not wrap the power cord tightly around the iron while it is still hot. Store the cord loosely to prevent damage.
- **Storage:** Store the cooled iron upright on its heel rest in a dry, safe place, away from children.

7. TROUBLESHOOTING

If you encounter any issues with your iron, please refer to the following common problems and solutions before contacting customer support.

Advertisements

Problem	Possible Cause	Solution
Iron does not heat up.	Not plugged in; power outlet faulty; temperature dial set to 'OFF' or 'MIN'; power outage.	Ensure the iron is securely plugged in. Test the outlet with another appliance. Turn the temperature dial to a fabric setting. Check your household's power supply.
Iron not gliding	Soleplate is dirty or has residue; temperature setting	Clean the soleplate as per maintenance instructions. Increase the temperature setting if

Problem	Possible Cause	Solution
smoothly.	is too low for the fabric.	appropriate for the fabric.
Indicator light not working.	Iron is not heating; bulb malfunction.	Check if the iron is heating. If the iron heats but the light does not work, it may be a bulb issue. Contact customer support if the iron is not heating.

If the problem persists after trying these solutions, please contact Crompton customer support.
