Gillette ProGlide Styler 4-in-1 Trimmer User Manual

Model: 81743121

PRODUCT OVERVIEW

The Gillette ProGlide Styler 4-in-1 is a versatile grooming tool designed for men. It functions as a trimmer, shaver, precision edger, and body groomer. Featuring Braun technology, this styler is waterproof and can be used in the shower, offering convenience and flexibility for your grooming routine.

Image: Front view of the Gillette Styler 4-in-1 packaging, highlighting its four main functions: trim, shave, edge, and body. The packaging also shows the styler unit and a blade refill.

Image: The Gillette Styler 4-in-1 trimmer unit displayed with its included accessories: three comb attachments of varying lengths and one ProGlide blade cartridge.

PACKAGE CONTENTS

Your Gillette ProGlide Styler package includes the following items:

- 1x Gillette ProGlide Styler Trimmer Unit
- 1x ProGlide Blade Cartridge
- 3x Interchangeable Comb Attachments (for different hair lengths)
- 1x AA Battery (Note: Batteries are not always included, please check packaging)

Image: Side view of the product packaging, visually listing the contents: the trimmer, three comb attachments, one blade, and one battery.

SETUP

1. **Install Batteries:** Open the battery compartment (usually at the bottom of the handle) and insert the required batteries (AA, not always included). Ensure correct polarity.
2. **Attach Comb:** Select the desired comb attachment based on your preferred hair length. Slide the comb onto the trimmer head until it clicks securely into place.
3. **Attach Blade (for shaving/edging):** If you intend to shave or precision edge, attach a ProGlide blade cartridge to the designated slot on the trimmer head.

OPERATING INSTRUCTIONS

General Usage Tips:

- For easier hair trimming, it is recommended to groom after a shower.
- After drying your beard, comb it thoroughly to detangle any knots.
- The styler is waterproof and can be used wet or dry, including in the shower.

Trimming Beard or Body Hair:

1. Ensure the appropriate comb attachment is securely in place.
2. Turn on the trimmer.
3. Begin trimming your facial or body hair using the longest comb first. Adjust to a shorter comb if a closer trim is desired.
4. Move the trimmer across the desired area, following the contours of your face or body.
5. Rinse the trimmer periodically during use to prevent hair buildup and ensure efficient cutting.

Shaving and Precision Edging:

1. For a close shave, apply shaving gel or foam to the area.
2. Use the ProGlide blade cartridge attached to the styler. Shave both with and against the grain for optimal closeness.
3. For precise edging and defining beard lines (e.g., neck, upper lip, sideburns), use the precision trimmer blade.
4. After cleaning your skin, check for symmetry in your beard shape.
5. If you have a mustache, comb it before leveling, then use mustache scissors for finishing touches.

MIX

Image: The back of the product packaging, illustrating the four primary uses of the Gillette Styler: trimming, shaving, defining edges, and body grooming, with small visual examples for each.

MAINTENANCE

- 1. **Cleaning:** After each use, rinse the trimmer head and comb attachments thoroughly under running water to remove hair and product residue. The styler is fully washable.
- 2. **Drying:** Allow the trimmer and attachments to air dry completely before storing. Do not use a cloth to dry the blades as this may damage them.
- 3. **Storage:** Store the styler and its accessories in a clean, dry place, away from direct sunlight and extreme temperatures.
- 4. **Blade Replacement:** Replace the ProGlide blade cartridge when it becomes dull or uncomfortable to use. The styler is compatible with Gillette SkinGuard Sensitive, Fusion5, ProGlide, and ProShield blades.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Gillette ProGlide Styler.

Problem	Possible Cause	Solution
Trimmer not turning on.	Dead or incorrectly installed batteries.	Check battery polarity or replace with fresh AA batteries.
Poor trimming performance.	Hair buildup in the trimmer head or dull blade.	Rinse the trimmer head thoroughly. Replace the blade cartridge if it feels dull.
Skin irritation after shaving.	Dull blade, dry shaving, or improper technique.	Ensure blade is sharp. Use shaving cream/gel. Shave with the grain first, then against if needed.
