BEARDO BDTO029

Beardo Ape-X Prime 3-in-1 Multipurpose Trimmer User Manual

Model: BDTO029

INTRODUCTION

Thank you for choosing the Beardo Ape-X Prime 3-in-1 Multipurpose Trimmer. This device is designed for versatile grooming, offering solutions for beard trimming, precision styling, and ear & nose hair removal. Please read this manual carefully before using the product to ensure safe and optimal performance.

IMPORTANT SAFETY INFORMATION

- **Keep out of reach of children.**
- Do not immerse the main body of the trimmer in water. The trimmer is IPX5 water-resistant, meaning it can withstand splashes and light rinsing, but not full submersion.
- Ensure the charging port is dry before connecting the Type-C charging cable.
- Do not use the trimmer if the blades are damaged, as this may cause injury.
- Store the trimmer in a cool, dry place when not in use.

WHAT'S IN THE BOX

Your Beardo Ape-X Prime Trimmer package includes:

- 1 Hair Trimmer Unit
- 3 Interchangeable Heads:
 - T Blade (for wide coverage/beard trimming)

- Precision Blade (for shaping/precision styling)
- Ear & Nose Attachment (for delicate areas)
- Charging Cable (Type-C)
- Cleaning Brush
- Lubricating Oil (if included, typically for blade maintenance)

SETUP AND CHARGING

Initial Charge

1. Before first use, fully charge the trimmer.
2. Connect the Type-C charging cable to the trimmer's charging port and plug the other end into a compatible USB power adapter (not included).
3. The LED battery indicator will show the charging status. A full charge provides up to 120 minutes of continuous use.
4. A quick charge option is available for emergency trims.

Attaching/Detaching Trimmer Heads

1. To attach a head: Align the desired head (T Blade, Precision Blade, or Ear & Nose Attachment) with the trimmer body and press firmly until it clicks into place.
2. To detach a head: Gently pull the head upwards from the trimmer body.

OPERATING INSTRUCTIONS

General Operation

- Press the power button to turn the trimmer ON or OFF.
- The trimmer operates with a 6000 RPM motor for efficient grooming.

Using the Beard Trimmer (T Blade)

The T Blade is suitable for general beard trimming and shaping.

1. Attach the T Blade head to the trimmer.
2. Select your desired trimming length using the included comb attachments (e.g., 1mm for stubble, 3mm for short beard, 5mm for long beard).
3. Move the trimmer against the direction of hair growth for an even trim.

Using the Precision Trimmer (Precision Blade)

The Precision Blade is ideal for detailing, shaping, and creating sharp lines.

1. Attach the Precision Blade head.
2. Use the trimmer without a comb for precise edging and detailing.
3. The zero-gap blades allow for trims less than 0.25mm.

Using the Ear & Nose Trimmer (Ear & Nose Attachment)

This attachment is designed for safe and comfortable removal of unwanted ear and nose hair.

1. Attach the Ear & Nose attachment.
2. Gently insert the trimmer tip into your nostril or ear canal.
3. Move the trimmer in a circular motion to trim hairs. Do not insert too deeply.

MAINTENANCE AND CLEANING

Cleaning the Trimmer Heads

1. Turn off the trimmer and detach the head after each use.
2. Use the provided cleaning brush to remove loose hairs from the blades and inside the head.
3. The trimmer heads are IPX5 water-resistant and can be rinsed under running water. Ensure they are completely dry before reattaching or storing.
4. Do not use abrasive cleaners or harsh chemicals.

Blade Care

- The stainless steel blades are self-sharpening, maintaining their sharpness over time.
- Periodically apply a small drop of lubricating oil (if provided) to the blades to ensure smooth operation and longevity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Trimmer does not turn on.	Battery is depleted.	Charge the trimmer fully using the Type-C cable.
Trimmer pulls hair or cuts unevenly.	Blades are dirty or dull; incorrect attachment.	Clean the blades thoroughly. Ensure the correct head and comb attachment are used for the desired trim. Apply lubricating oil if necessary.
Trimmer makes unusual noise.	Blades may be obstructed or require lubrication.	Clean the blades and apply lubricating oil. If the issue persists, contact customer support.

SPECIFICATIONS
