5.2 3-in-1 Usage: Drying, Straightening, and Curling

The volumizer is designed for multiple styling purposes:

- **Hair Drying:** Use the appliance on damp, towel-dried hair. Section your hair and glide the brush through from roots to ends, allowing the airflow to dry and style simultaneously.
- **Hair Straightening:** For straighter styles, work in smaller sections. Pull the brush slowly through your hair, maintaining tension, from root to tip.
- **Hair Curling/Volumizing:** For curls or added volume, wrap sections of hair around the barrel and hold

for a few seconds before releasing. The nylon bristles help in creating volume and detangling.

6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your appliance.

1. **Cleaning the Brush Head:** Regularly remove any hair tangled in the bristles. Use a soft, damp cloth to wipe the barrel and bristles. Ensure the appliance is unplugged and completely cool before cleaning.
2. **Cleaning Air Vents:** Periodically check and clean the air intake and exhaust vents to prevent dust and hair buildup, which can affect performance and trigger overheat protection.
3. **Storage:** Store the appliance in a cool, dry place, away from moisture. Do not wrap the power cord tightly around the appliance, as this can damage the cord. Utilize the ergonomic design with stand support for stable storage.

7. TROUBLESHOOTING

If you encounter issues with your Havells HD4081, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	No power supply; Overheat protection activated.	Check if the plug is securely in the outlet. If the appliance was recently used and stopped, unplug it and allow it to cool for at least 10 minutes before trying again.
Reduced airflow or heating.	Blocked air intake/exhaust vents.	Unplug the appliance and carefully clean any dust or hair from the air vents.
Hair gets tangled in bristles.	Using on large sections of hair; Hair not properly detangled.	Work with smaller sections of hair. Ensure hair is detangled before styling. Clean bristles regularly.

If the problem persists after attempting these solutions, please contact customer support.
