Butterfly Magnum Cool Touch Electric Kettle 1.5 Litre User Manual

Model: TRIWAK0050

Advertisements

1. INTRODUCTION

Thank you for choosing the Butterfly Magnum Cool Touch Electric Kettle. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read these instructions carefully before first use and retain them for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before use.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against fire, electric shock, and injury to persons, do not immerse cord, plugs, or the kettle base in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner. Contact customer service for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or personal injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.

- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off," then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Scalding may occur if the lid is removed during the heating cycle.
- This appliance is for household use only.
- Ensure the kettle is placed on a stable, flat surface away from the edge of the counter.
- Do not overfill the kettle above the maximum fill line to prevent boiling water from spilling out.
- The kettle features a double-layer cool-touch body, but caution should still be exercised when handling, especially near the spout and lid.

4. SETUP AND FIRST USE

1. **Unpacking:** Carefully remove all packaging materials from the kettle and its accessories.
2. **Placement:** Place the power base on a dry, flat, and stable surface, away from the edge of the counter and out of reach of children. Ensure the power cord is not dangling.
3. **Initial Cleaning:** Before first use, fill the kettle with clean water up to the maximum fill line. Boil the water, then discard it. Repeat this process 2-3 times to remove any manufacturing residues.
4. **Power Connection:** Plug the power cord into a suitable 240V AC electrical outlet.

5. OPERATING INSTRUCTIONS

1. **Filling the Kettle:** Open the lid and fill the kettle with the desired amount of water. Do not fill below the minimum mark or above the maximum (1.5 Litres) mark. Overfilling may cause boiling water to spill out.

2. **Placing on Power Base:** Place the kettle firmly onto the power base. The 360-degree swivel base allows for convenient placement from any angle.
3. **Switching On:** Press the ON/OFF switch located on the handle or base of the kettle. The indicator light will illuminate, signifying that the kettle is heating.
4. **Boiling:** The kettle will begin to heat the water. Once the water reaches boiling point, the kettle will automatically shut off, and the indicator light will extinguish.
5. **Serving:** Carefully lift the kettle from its base and pour the hot water. The cool-touch body and heat-resistant handle ensure safe handling.
6. **Re-boiling:** If you need to re-boil water, wait a few seconds for the automatic shut-off mechanism to reset before pressing the switch again.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life of your kettle.

- **Before Cleaning:** Always unplug the kettle from the power outlet and allow it to cool completely before cleaning.
- **Exterior Cleaning:** Wipe the exterior of the kettle with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as these can damage the finish.
- **Interior Cleaning (Descaling):** Over time, mineral deposits (limescale) may build up inside the kettle, especially in hard water areas. To descale:
 - a. Fill the kettle with a mixture of one part white vinegar and two parts water, or use a commercial descaling solution according to its instructions.
 - b. Bring the mixture to a boil and let it stand for at least 30 minutes, or longer if the scale is heavy.
 - c. Empty the kettle and rinse thoroughly with fresh water several times to remove any vinegar residue.
 - d. If necessary, repeat the process.

- **Do Not Immerse:** Never immerse the kettle body or power base in water or any other liquid.

7. TROUBLESHOOTING

If you encounter any issues with your kettle, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Kettle does not heat up.	No power supply; Kettle not properly seated on base; Automatic shut-off activated.	Check power outlet and plug; Ensure kettle is correctly placed on the power base; Wait for the kettle to cool down and reset.
Kettle switches off before boiling.	Limescale buildup; Kettle overfilled or underfilled; Dry boil protection activated.	Descale the kettle; Ensure water level is between MIN and MAX marks; If dry boil protection activated, allow kettle to cool before refilling.
Water tastes metallic or has an odor.	New appliance odor; Residue from initial use.	Perform initial cleaning steps (boil and discard water) several times.
Steam escapes from areas other than the spout.	Lid not closed properly.	Ensure the lid is securely closed before boiling.

If the problem persists after trying these solutions, please contact customer support.
