***Note: If the voice assistant doesn't get triggered, then the functionality has to be first enabled via your media device settings.***

Charging norms & Precautionary Guidelines: -	
1) Charger/Brick/Adapter	5V 2A
2) Cable/Wire	Standard Cable (35 strands @0.10mm diameter/ strand)
Any other accessory can be used to charge the product as long as the above-mentioned norms are followed.	

CHARGING

- Connect one end of the provided cable to the USB Type-C port on the headset and the other end to a wall adapter or laptop
- While charging the indicator LED turns into steady red
- When the headphone is fully charged, LED turns into steady blue
- Use only authorized/company chargers for the headset, as unauthorized ones may damage the same and invalidate the warranty on the headset as well
- The headphones cannot be utilized for listening purposes while it is charging mode

***Note: When the headphones are in low power state, then that gets indicated by slowly flashing red LED.***

DUAL PAIRING:

To connect Rockerz 480 to two devices simultaneously, firstly connect the headphone to one of the devices. Then, switch both the headphone and the first device's Bluetooth off. Thereafter, connect the headphone to the second device, and again switch the first device on. The headphone gets connected to both devices. If not, connect the first device manually once again to activate dual pairing.

ENX™ TECH

Our ENX™ tech algorithm cancels out the background noise so that you can be heard crystal clear via voice calls. One need not activate ENX™ as the mic is equipped with the same and activated by default.

***Deliver your voice without interruptions anywhere – traffic, railway stations, airports, work space; literally anywhere!***

RESET

When the headphone is in the 'ON' state, press and hold the Vol + and Vol - buttons simultaneously for 5 seconds  
***Note: Reset should be done in pairing mode.***

OTHER FUNCTIONS

- If there's no connection established when the Bluetooth is switched on then the device powers off automatically after a while
- If you receive an incoming call during playing music, the music automatically disconnects. When the call is done and disconnected, the music starts to play automatically from where it left.

ANOMALIES & SOLUTIONS

- A. Mobile can't search the headset
- Check if the Bluetooth headset is powered on or off (When powered on, the LEDs blink with red and blue colours alternatively)
- If it is powered on and the device still can't connect, then please reboot the Bluetooth device and the phone
- B. After connecting the headset with the phone, disconnection or noise occurs
- This may be due to the low power of the headset. Please charge the Bluetooth headset
- There might be obstruction between the headset and the phone or the distance between them exceeds the maximum range for signal reception
- C.Voice Assistant Support doesn't respond
- If the voice assistant doesn't get triggered, then the functionality has to be first enabled via your media device's settings.
